Nature of Complaint:

Docket No. E-00000-11-0328

Dear Chairman and Commissioners:

I am writing to you regarding the installation of wireless digital meters aka AMI (Advanced Metering Infrastructure) of AMR (Automated Remote Reader) on personal property of APS customers throughout the state of Arizona of which I am adamantly opposed.

This is an invasion of personal property and an unsolicited change of meter for measuring and billing purposes of electricity. I do not give permission to APS change/install a wireless digital meter on my property. It is a violation of the 4th Amendment of the United States Constitution where we are guaranteed the right to be secure in our person and houses.. This is a monitoring and surveillance meter which, even the phone company cannot listen to conversations without a warrant/court order. I am asking you to issue a STOP ORDER on the installation of these digit meters. If an individual wants one, let them request one. Mandatory replacement of analog meters without consent is a violation of privacy and personal property invasion. The safety and effectiveness of these meters has not been prove.. If anything they have proven to be unsafe and unreliable. The majority of people have spoken, and we don't want them.

As you were campaigning, you promised to be the people's advocate for fair rate changes and oversight of these huge corporations to protect the consumers against unfair and unreasonable usurpation of rights by the various utility companies in this state. I understand that APS also wants to charge a monthly fee and an "Opt Out" charge. This is simply wrong and an abuse of power and money. Many people have and/or will be losing their jobs. There is a short video at www.ark-of-survival.com/smart-meters.html.

Please protect the privacy and right to choose by the people of the State of Arizona by saying NO to APS for mandatory installation of smart meter surveillance meters on our property for their gain.

Respectfully submitted,

ARIZONA CORPORATION COMMISSION
