Re: Request for Clarification – March 18, 2013 Self-Certification Letter
CEC Docket Number L-00000GG-08-407-0-139, Case Number 139, Decision
Number 70638 L-00000GG-08-0408-00140

Dear Mr. Sanz:

I am in receipt of the above referenced letter. The second paragraph reads as follows:

In 2012 Solana has consumed Two hundred and forty three with 85 (243.85) Acre feet of water for construction, and *contributed* (emphasis added) Four hundred and forty eight with 20 (448.20) Acre feet of water for Bull Durnham Wash....

The Arizona Department of Water Resources requests clarification on the letter. Specifically, please describe the term “contributed....water for Bull Durnham Wash...” in more detail.

Additionally, while not a directly stated requirement of the Certificate of Environmental Compatibility, it would assist the Department’s regional planning efforts if Abengoa would identify the source(s) of water in future Self-Reporting Letters for the activities associated with the Solana Generating Facility (on-site wells, Paloma Irrigation and Drainage District, or other).

Thank you for the timely filing of the Self-Certification Letter and your anticipated response to our request for clarification. Please contact me directly if you have any questions.

Sincerely,

Michael J. Lacey
Deputy Director
