Dear Sir or Madam:

This filing is being made on behalf of Qwest Corporation, d/b/a CenturyLink QC, Entity Code Code T-01051B.

Enclosed for filing with the Commission is an original plus thirteen (13) copies of revisions to Centurylink's Exchange and Network Services Tariff.

CenturyLink is making this filing to allow Custom Ringing as an optional feature for customers who are purchasing the Low Use Option Service. The rate for Custom Ringing is found in Section 5.4.10 in the Arizona Competitive Exchange and Network Services Tariff No. 3.

IN addition, this filing includes some corrections to an earlier filing made by Reed Peterson in the matter of Docket No. T-01051B-11-0378, issued on March 18, 2013 and effective on March 19, 2013. These changes are corrections to three page headers and have not impact on CenturyLink customers.

I respectfully request an effective date for this filing of May15, 2013.

Acknowledgment and date of receipt of this transmittal are requested. A duplicate letter and self-addressed, stamped envelope are attached for this purpose. If you have any questions regarding this filing, please contact me directly.

Respectfully submitted,

Dawn Salaver

105. OBSOLETE EXCHANGE SERVICES

105.2 LOCAL EXCHANGE SERVICE

105.2.5 LOCAL SERVICE OPTIONS

A. Combination Access Line Service

1. Description

- a. When two or more access lines, each at a different location in the same local service area, desire the capability of answering calls for one line or each of the lines at another location, such service will be provided subject to availability of facilities and in accordance with terms, conditions and rates herein.
- b. Combination Access Line Service will be furnished in accordance with the following arrangements.

Arrangement 1

When any one of the access lines is called, the bells at all locations will ring:

- Code rings or distinctive signaling, intended to designate which line is being called, will not be permitted in connection with this arrangement.
- The Company reserves the right to limit the number of lines furnished when in its opinion this is necessary to prevent impairment of the service.

Arrangement 2

When the first access line is called, the bell at the called line and the extension bell at the other location will ring; when the second line is called, the bell at that location only will ring:

- An extension bell will be required at the second location.
- More than two access lines will not be permitted in connection with this arrangement.
