Because of the economic downfall, my job was terminated & I now making HALF what I used to. In response to the financial cut, I had to drastically reduce my budget, which included selling my forever dream auto for a used cheap car. I was able to keep my house (for now), but am worried that any increase to current utility bills will have a great impact on my financial abilities. If Global Water increases their charges, my HOA has to increase their fees and I would end up paying twice for the GW increase. These increases will weigh heavily on my ability to maintain my home ownership. Please note that this is my first (and only) home purchase& when I bought it, I was planning on living in it for 30+ yrs.
