re: Docket #E-01345A-11-0232 and E-00000-13-0031

Chairman Stump and Commissioners,

I would like to express my support for APS's Demand Side Management Program. It has enabled Trinity Cathedral to upgrade it's cooling and lighting, projects we would not have been able to undertake without APS's assistance.

The upgrades not only reduce our environmental impact, but will reduce our monthly energy costs and the constant maintenance required by older, inefficient equipment. The rebates helped us get over the initial cost obstacle, a very serious consideration at a time of a faltering economy and increased calls for assistance for those in need.

Further, as we are called to care for the poor, the sick and the needy, I strongly support APS maintaining a commitment to Low Income Programs, which help individuals and families who are struggling the most.

I urge you to stay the course and maintain the commitment to EE programs which have been so successful. We
