**PROPOSED SETTLEMENT AGREEMENT OF  
DOCKET NO. W-01651B-12-0339  
VAIL WATER COMPANY'S REQUEST FOR RATE ADJUSTMENT**

The purpose of this Settlement Agreement (“Agreement”) is to settle disputed issues related to Docket No. W-01651B-12-0339, Vail Water Company’s (“Vail” or the “Company”) application for a determination of the fair value of its utility plant and property and the setting of rates thereon (the “Rate Case”). This Agreement is entered into between Arizona Corporation Commission Utilities Division (“Staff”) and Vail (each a “Party,” and collectively, the “Parties”).

**I. RECITALS**

- 1.1 Vail filed the rate application in Docket No. W-01651B-12-0339 on July 27, 2012. Staff found the Application sufficient on August 27, 2012.
- 1.2 No other entity filed to intervene.
- 1.3 A Procedural Order was issued on September 11, 2012, scheduling an evidentiary hearing on May 7, 2013.
- 1.4 This Agreement is a result of the Parties’ good faith efforts to settle all of the issues presented in the Rate Case.
- 1.5 The terms of this Agreement will serve the public interest by providing a just and reasonable resolution of the issues presented in the Rate Case, establishing just and reasonable rates for Vail’s customers, and promoting the health, welfare, and safety of Vail’s customers. Commission approval of this Agreement will further serve the public interest by allowing the Parties to avoid the expense and delay associated with continued litigation.
- 1.6 The Parties agree to ask the Commission to: (1) find that the terms and conditions of this Agreement are just and reasonable and in the public interest, along with any and all other necessary findings, and (2) approve the Agreement and order that the Agreement and the rates contained therein become effective at the earliest practicable date.

## TERMS AND CONDITIONS

### II. RATE INCREASE

For ratemaking purposes and for the purposes of this Agreement, the Parties agree that:

- 2.1 Vail's adjusted test year revenue was \$2,183,759.
- 2.2 Vail will receive an annual increase in revenue of \$21,480, for an annual revenue requirement of \$2,205,239.
- 2.3 The Company's fair value rate base used to establish the rates agreed to herein is \$3,315,108.
- 2.4 The fair value rate base includes deferred Central Arizona Project ("CAP") recharge credits of \$1,081,028. In addition, the Company agrees that all recharge credits sold by the Company must be priced, at a minimum, to recover the direct costs of the CAP water, including recognition of the Department of Water Resources' ("ADWR") 5% cut to the aquifer.
- 2.5 The schedules attached as **Exhibit A** ("Settlement Schedules") reflect the Parties' agreed upon rate base, operating expenses and operating income, cost of capital and rate design.

### III. COST OF CAPITAL

For ratemaking purposes and for the purposes of this Agreement, the Parties agree that:

- 3.1 The Company has a capital structure comprised of 100% common equity.
- 3.2 A return on common equity of 9.1% shall be adopted.

### IV. CAP SURCHARGE ADJUSTMENT PROVISIONS

- 4.1 Vail shall implement a CAP Surcharge, the components of which will include (i) CAP Municipal and Industrial (M&I) capital charges, (ii) CAP delivery charges, and (iii) City of Tucson wheeling charges.

- 4.2 The CAP Surcharge will begin at zero and be adjusted annually as described in the Proposed Plan of Administration.
- 4.3 As described in the Proposed Plan of Administration, Vail's CAP capital and delivery cost recovery through the CAP Surcharge will be reduced for any water loss in excess of 10 percent (10%).
- 4.4 The parties shall file the Proposed Plan of Administration prior to the May 7, 2013 hearing.

**V. RATE DESIGN**

- 5.1 The Company accepts Staff's rate design to generate the settlement revenue requirement as further set forth in the Settlement Schedules.

**VI. COMPLIANCE AND OTHER MATTERS**

- 6.1 The Company will obtain timesheets for management services from TEM Corp. to support management fees requested for recovery in rates in future rate cases and provide copies of such time records to Staff in future rate cases.
- 6.2 The Company's CAP Hook Up Fee Tariff will be eliminated.

**VII. COMMISSION EVALUATION OF PROPOSED SETTLEMENT**

- 7.1 This Agreement shall serve as a procedural device by which the Parties will submit their proposed settlement of Vail's pending rate case, Docket No. W-01651B-12-0339, to the Commission.
- 7.2 All currently-filed testimony and exhibits shall be offered into the Commission's record as evidence.
- 7.3 The Parties recognize that the Commission will independently consider and evaluate the terms of this Agreement.
- 7.4 If the Commission issues an order adopting all material terms of this Agreement, such action shall constitute Commission approval of the Agreement. Thereafter, the Parties shall abide by the terms as approved by the Commission.

- 7.5 The Parties agree to support and defend this Agreement, including filing testimony in support of the Agreement and presenting evidence in support of the Agreement at the hearing scheduled to begin on May 7, 2013, and will not oppose any provision of the Agreement in pre-filed or live testimony. The Parties shall take reasonable steps to expedite consideration of the settlement, entry of a decision adopting the settlement, and implementation of the rates anticipated in this Agreement and shall not seek any delay in the schedules set for consideration of the Agreement or for the Administrative Law Judge's or Commission's consideration of the settlement embodied in this Agreement. If the Commission adopts an order approving all material terms of this Agreement, the Parties will support and defend the Commission's order before any court or regulatory agency in which it may be at issue.
- 7.6 Within fifteen (15) days of an order of the Commission issued in this Docket, Vail shall file compliance tariffs for Staff review and approval. Such compliance tariffs, however, will become effective upon the effective date of the rate increase stated in the Commission's order.
- 7.7 If the Commission fails to issue an order adopting all material terms of this Agreement or adds new or different material terms to this Agreement or decides any issue or adopts any position in conflict with any material term of this Agreement, any or all of the Parties may withdraw from this Agreement, and such Party or Parties may pursue without prejudice their respective remedies at law. For purposes of this Agreement, whether a term is material shall be left to the discretion of the Party choosing to withdraw from the Agreement.
- 7.8 Vail recognizes that Staff does not have the power to bind the Commission. For purposes of proposing a settlement agreement, Staff acts in the same manner as any party to a Commission proceeding.

## **VIII. MISCELLANEOUS PROVISIONS**

- 8.1 The provisions set forth in this Agreement are made for the purposes of a compromised settlement only and shall not be construed as admissions against interest or waivers of litigation positions of the Parties in this Rate Case or to other or future rate cases.
- 8.2 This Agreement represents the Parties' mutual desire to compromise and settle disputed issues in a manner consistent with the public interest. None of the positions taken in this Agreement by any of the Parties may be

referred to, cited, or relied upon as precedent in any proceeding before the Commission, any other regulatory agency, or any court for any purpose except in furtherance of this Agreement.

- 8.3 This case presents a unique set of circumstances and compromises to achieve consensus for settlement. Consequently, participants may be accepting positions that, in other circumstances, they would be unwilling to accept. They are doing so because the Agreement, as a whole, with its various provisions for settling the unique issues presented by this case, is consistent with their long-term interests and the broad public interest. The acceptance by any Party of any specific element of this Agreement shall not be considered as precedent for acceptance of that element in any other context.
- 8.4 No Party is bound by any position asserted in negotiations, except as expressly stated otherwise in this Agreement. No Party shall offer evidence of conduct or statements made in the course of negotiating this Agreement before this Commission, or any other regulatory agency, or any court.
- 8.5 To the extent any provision of this Agreement is inconsistent with any existing Commission order, rule, or regulation, this Agreement shall control.
- 8.6 Each of the terms of this Agreement is in consideration of all other terms of this Agreement. Accordingly, the terms are not severable.
- 8.7 The Parties warrant and represent that each person whose signature appears below is fully authorized and empowered to execute this Agreement.
- 8.8 The Parties acknowledge that they are represented by competent legal counsel and that they understand all of the terms of this Agreement and have had an opportunity to participate in the drafting of this Agreement and to fully review it with their counsel before signing, and that they execute this Agreement with full knowledge of the terms of the Agreement.
- 8.9 This Agreement may be executed in any number of counterparts and by each Party on separate counterparts, each of which when so executed and delivered shall be deemed an original and all of which taken together shall constitute one and the same instrument. This Agreement may also be executed electronically or by facsimile.

Executed this 26th day of April, 2013.

AMENDED  
PLAN  
OF  
ADMINISTRATION

## **CAP Surcharge and Long-Term Storage Credit Balance Plan of Administration**

This Plan of Administration (“POA”) relates to the administration of Vail Water Company’s (“Vail” or the “Company”) CAP Surcharge and Long-Term Storage Balance. The purpose of the POA is to describe how Vail will administer its CAP Surcharge and Long-Term Storage Balance if approved by the Arizona Corporation Commission in Docket No. W-01651B-12-0339.

### **I. Overview**

Vail is a public service corporation providing water utility service in Pima County, Arizona pursuant to a Certificate of Convenience and Necessity granted by the Arizona Corporation Commission. As described in Decision Nos. 62450 and 73218, Vail is currently pursuing a CAP project that will allow for the direct delivery of CAP water in Vail’s service territory.

### **II. General Description - Surcharge**

The purpose of the CAP surcharge mechanism is to recover the costs of CAP water and delivery of CAP water to the Company’s service territory not included in base rates once the CAP project is complete and water is being delivered. Under the Company’s proposed CAP surcharge mechanism, the Company would be required to make a separate filing for Commission consideration before the first surcharge becomes effective. The Company shall file its first surcharge request prior to taking delivery of CAP water through the CAP project. The amount of the initial surcharge will be determined and submitted for approval by the Commission. The CAP surcharge will be based on gallons sold similar to a commodity rate. The CAP surcharge will appear on customers’ bills as a separate line item labeled “CAP Water Surcharge.” Thereafter, the Company shall make annual filings prior to the anniversary of the effective date of the initial CAP surcharge.

### **III. Components of CAP Surcharge**

The CAP surcharge will include the following components as further described in Exhibit 1:

- Component 1 - Variance from Combined CAP M&I Capital and CAP Delivery Charges included in Base Rates – This component is based upon variances between the combined CAP M&I capital and CAP delivery charges in effect for the applicable year and the combined amount of those rates (\$105.87 per acre-foot) included in base rates.

- Component 2 - Tucson Water Wheeling Fees – This component is based upon the fees set forth in the final Wheeling Agreement between Vail and Tucson Water and the volume of water delivered to Vail’s service territory as defined by the Wheeling Agreement.
- Component 3 - Periodic Unrecovered Recharge Credits – This component applies the rate variance calculated in Component 1 to any excess of the total CAP allocation (in acre-feet) over the total water wheeled to customers. It is an asset that represents the CAP costs included in long term storage credits reserved for future use.
- Component 4 - Prior Year Under/(Over) Recovery – This component represents the under/(over) recovery of the prior year’s costs through the surcharge.
- Component 5 - Long Term Storage Credit Recovery – This component reflects the value of Long Term Storage Credits to be recovered from ratepayers and used to offset CAGR fees. The amount for recovery from ratepayers is calculated using average inventory cost. Vail will provide documentation to support these amounts.
- Component 6 - Gain on Sale of Long Term Storage Credits – This component reflects the customers’ share (50 percent) of any profit resulting from the sale of Long Term Storage Credits to third parties.
- Component 7 - Excess Water Loss Disallowance – This component is a disallowance of charges based on unaccounted for water loss in Vail’s system in excess of 10 percent. If Vail’s unaccounted for water loss for the 12 months prior to the date of filing for a new surcharge exceeds 10 percent, the total amounts of the other components will be reduced by the percentage the unaccounted for water loss is in excess of 10 percent.

#### **IV. Calculation of the CAP Surcharge**

Once the total of the component costs have been determined, the CAP surcharge (per 1,000 gallons) will be calculated by dividing the total costs by the prior year’s gallons sold (in 1,000s). An illustrative exhibit is attached as Exhibit 1 showing the components of the calculation.

The Company will track the surcharge collections during the year and identify any under/(over) recovery. Any under/(over) recovery of the prior year’s surcharge will be considered in the subsequent year’s computation of the surcharge.

#### **V. CAP Long-Term Storage Balance**

The Company will maintain a CAP long-term storage balance. The balance will be calculated beginning with the \$1,081,028 amount adopted as a component of rate base and reflect additions for CAP M&I capital and CAP delivery charges incurred in the period beginning January 1, 2012, and ending the day before rates become effective in this case and

Periodic Unrecovered Recharge Credits (Component 3) and deductions for Long-Term Storage Credit Recovery (Component 5) and Total Cost of Long-Term Storage Credits Sold (Exhibit 1, Line 22).

## **VI. Reporting**

The Company shall file its first surcharge request prior to taking delivery of CAP water through the CAP project.

On or before February 1st of each year thereafter Vail will submit to the Commission as a compliance item an annual report showing its collections under the CAP Surcharge that includes a calculation of any under/(over) recovery and a calculation of the CAP Long-Term Storage Balance with detail showing each component's contribution to the change in balance from the prior year.

## **VII. CAP Surcharge Implementation**

Vail will submit annually a schedule showing the computation of each year's surcharge along with supporting documentation of the underlying costs. Except for the first year, which may be a partial year, each surcharge shall remain in effect for a period of 12 months. The first surcharge calculation shall require Commission approval prior to going into effect. Thereafter, each surcharge shall be approved administratively by Commission Staff and shall become effective on April 1<sup>st</sup>, unless Commission Staff files an objection to such surcharge calculation prior to April 1<sup>st</sup>. Notwithstanding the foregoing, if any annual surcharge proposed by Vail represents an increase greater than \$1.00 per 1,000 gallons over the CAP surcharge then in effect, such surcharge shall require Commission approval prior to going into effect.
