Arizona Corporation Commission

DOCKETED

MAY 31 2013

CORP COMMISSION DOCKET CONTROL

DOCKETED BY [Signature]

To the Corporation Commissioners:

It has been over a year that the Commissioners heard testimony about the health problems suffered by people who are already compromised and who are sensitive to the electromagnetic radiation emitted by the so called 'smart meters'. Thank you for taking comments and testimony.

You already have a long list of complaints ranging from cancer recurrence to sleep deprivation.

Health problems are JUST ONE of the issues.

Another is privacy. CIA director David Petraeus has said that the rise of new 'smart' gadgets means that Americans are effectively bugging their own homes, saving US spy agencies a job when it identifies any "persons of interest". The new technologies aim to add processors and web connections (chips) to previously 'dumb' home appliances such as fridges, ovens and lighting systems. "Transformational" is an overused word, but I do believe it properly applies to these technologies, particularly to their effect on clandestine tradecraft." This is an invasion of privacy!! Have the Bill of Rights been gutted??

Violation of Law There is no Federal Law mandating Smart Meters and if there was it cannot include a non-contracted their party, the consumer. It violates Federal Wiretapping Law, clearly building a database, perhaps for sale? Or perhaps to track people without legal authority. These people are unelected and therefore unaccountable to the voter.

Another is that the system can be hacked. "The so-called 'smart grid' is as vulnerable as what we have now and is not smart at all." It is penetrable. -CIA director James Woolsey

Follow the Money Energy policy makers' plans received multi-billion dollar funding as part of the Economic Stimulus Act of 2008. Who else have their hands out?

Is it all about the money? Oh, perhaps we should add power. Essentially, what is happening is a Great American Take-Down. This is just one of the tentacles.

Please use your elected positions to keep Americans safe from these Orwellian schemes.

Thank you,

Dinah Lundell, 625 N Macdonald, Mesa 85201
