"To the members of the Arizona Corporation Commission, I implore you to deny the Global Water rate increase as it will be detrimental to the people of Maricopa. Mayor Christian Price and myself met with Commissioners Pierce and Burns at the ACC last year about this issue and in that meeting we expressed our concerns then just as we do now. Part of the reason for this concern is that when it comes to utilities in Maricopa, many of us that live here feel the effect of the ever-increasing rates whether it be from Electrical District 3 for our power or from our mandated HOA fees for basic cable in our homes (whether we use the cable provider or not), to now another rate increase from Global Water. Maricopa was one of the hardest hit communities from the housing recession, so please now assist in helping our community and our hard working citizens by saying no to this rate increase in order to keep more of our money in our own pockets. I truly appreciate and thank you for taking the time to come here tonight and and I thank you for the good work that you all do."

Respectfully,
Steve Smith
former Arizona State Senator, current member of the House of Representatives, and Maricopa resident.

Steve Smith
Representative - Legislative District 11
Arizona House of Representatives
