BRENDA BURNS PROPOSED AMENDMENT NO. 1

0000145344

TIME/DATE PREPARED: Thursday, June 06, 2013

COMPANY: Tucson Electric Power Company

AGENDA ITEM NO. 20

DOCKET NO(S): E-01933A-12-0291

OPEN MEETING DATE: June 11-12, 2013

The purpose of this proposed amendment is to consider TEP's "opt-out" smart meter tariffs/charges only after the Commission concludes its investigation into smart meters in Docket E-00000C-11-0328.

INSERT new paragraph

"TEP has requested approval of several charges related to situations where customers elect to "opt-out" of having their meters read by "smart meters". These charges are set forth in TEP's Statement of Charges, Attachment K to the Settlement Agreement and are reflected in certain proposed tariffs in Attachment J. The Commission has an on-going investigative docket on safety, privacy and health issues concerning the use of smart meters, Docket E-00000C-11-0328. Recently, in a letter dated May 23, 2013, the Commission provided notice to stakeholders and interested parties that it is seeking additional information on health issues, and further proceedings may be held by the Commission concerning the matters related to health and smart meters. We believe it is premature to approve TEP's proposed opt-out charges while its investigation into the use of smart meters is pending. Therefore, we shall not determine whether TEP's opt-out charges and tariffs should be approved at this time. Instead, we shall hold the rate case open until the Commission's investigation is concluded and consider the appropriateness of TEP's opt-out charges and tariffs after the Commission's decision is entered in Docket No. E-00000C-11-0328."
