RE: Docket Number E-01933A-12-0291

To Commissioner Stump and the Corporation Commission,

As a business owner and citizen of Tucson, Arizona, I insist that you adopt the energy efficiency plan for Tucson Electric Power as part of the TEP rate case.

Increasing energy efficiency will provide significant and cost-effective benefits for my fellow business owners, the electric system, and the economy overall. Increasing energy efficiency will save consumers and businesses money through lower electric bills, resulting in lower total costs for customers. Increasing energy efficiency will also reduce load growth, reduce the amount of water used for power generation, and create jobs and improve the economy.

In short, energy efficiency is the right choice for TEP. Thank you for considering my comments.

Best Wishes,

Myles Stone
