RE: Docket Number E-01933A-12-0291

Arizona Corporation Commission  
**DOCKETED**  
JUN 06 2013

DOCKETED BY *IM*

To the Corporation Commission,

As someone who lives, works, and owns a business in the service territory of Tucson Electric Power, I must press you to implement the energy efficiency proposal agreed to by TEP and others as part of the Tucson Electric Power rate case.

Improving the energy efficiency of our homes, businesses, and industries can yield quick, significant, and sustained energy savings, saving both consumers and businesses in Arizona billions of dollars in the process.

Time and again, energy efficiency policies have proven to be smart investments that create significant financial returns. What's more, these energy savings would allow us to scale back on the use of the oldest, dirtiest power plants – a welcome relief for our air quality and public health.

Implementing the energy efficiency plan and the overall energy efficiency standard would be an excellent way to save money on energy and improve community health overall. Thank you.

Regards,

Ubby Tobay
