Re: Solar net metering - APS

With a plea to the commissioners for help to act in support of rooftop solar and net metering!
My wife and I are over 75 years old and made, 2 years ago, the commitment to switch from "dirty" electricity to a clean solar roof system and help APS to meet its alternative production compliance as required by law and endorsed by the Commission.
Our decision was made difficult in that we don't have the funds for outright purchase but leased the system.

The lease payments work out to about the same amount than our former APS bill, as long as we get credit thru net metering.

If net metering is changed now we would have a financial hardship and would default on our solar lease with dire consequences.

Without the encouragement from the law and utility commission, offering incentives, we would not have gone the solar route. Now that we are stuck with a roof of solar panels it seems irresponsible and malicious to change the rules evocatively.

Thank you for your understanding

Sincerely yours,

G. Robiller
