Subject: Support for Immediate Implementation of Energy Efficiency Programs in TEP's Energy Efficiency Plan per ROO, E-01933A-11-0055

Jun 8, 2013

Commissioner Bob Stump
 1200 W. Washington St.
 Phoenix, AZ 85007

Arizona Corporation Commission
DOCKETED

JUN 10 2013

DOCKETED BY *ISM*

Dear Commissioner Stump,

Tucson Electric Power (TEP) customers can wait no longer for vital energy efficiency programs to be reinstated. On August 21, 2012, Administrative Law Judge Jane Rodda issued a Recommended Opinion and Order, effective immediately, that the vast majority of TEP energy efficiency programs be resumed. Unfortunately, it appears that action on this order has been delayed again due to political issues. I am asking you to schedule consideration of this important plan immediately and move forward so that these critical energy efficiency programs will be delayed no further.

In 2011 TEP invested \$11 million in energy efficiency programs. For 2012, it will likely only be \$5 million. That means loss of programs and jobs associated with those programs. Tucsonans can't afford to wait another two months or longer for these programs.

At a Tucson hearing in July, TEP customers and consumer and conservation advocates spoke in favor of the prompt reinstatement of energy efficiency programs. They told the judge about how our community benefits from these programs, how we have been able to lower our bills and keep our homes more comfortable. They also spoke about the jobs that are supported by these programs.

Please support TEP customers and delay important action no further on these energy efficiency programs. Please move forward immediately according to the judge's order.

Thank you for considering my comments.

Sincerely,

Mrs. Barbara Smith
 7845 Country Club Dr
 Pinetop, AZ 85935-8709

Subject: Energy Efficiency Programs

TO: Arizona Corporation Commissioners

FROM: Ken and JoAnn Bierman, [REDACTED], Tucson AZ 85745-7005

We are Tucson Electric Power customers and are asking you to support reinstating and expanding TEP's energy efficiency programs and an increased energy efficiency program budget for TEP. We are willing to invest our ratepayer dollars in increased energy efficiency programs to reduce pollution and support local jobs.

We support the Energy Efficiency Standard adopted by the ACC in 2010 and ask you to help ensure that it is implemented by approving the energy efficiency programs in the proposed settlement.

Thank you.
