Re: TEP Rate Case Settlement and TEP energy efficiency program, Docket # E-01933A-12-0291

Dear Chairman Stump and Commissioners:

I urge you to approve the proposed TEP settlement including the financing proposal for TEP's Energy Efficiency programs. These programs are essential to reducing our electric demand, saving water, conserving resources and setting the stage for additional investment in renewable energy. A long term financing program is essential to sustaining such a program; annual funding debates and possible delays (as we have seen during the past two years) in approval of specific programs are not helpful.

As a TEP customer, I encourage you to approve the long term financing from TEP's EE program when you consider it this week.

Thank you for your consideration.
