We are already considered to be one of the highest billed for Arizona. Is this goes through, not only will our water bill go up but so will our HOA bills. This town has already had a lot of people leave because of the high cost out here. I fell this will just push even more people out.

Another exorbitant rate increase often 2 yrs. Would not be sustainable in this fragile economy regardless if it is showing signs of recovery. We live in the community of Province where most are retired on 55+. We have our private consumption and also HOA fees that includes water that is used to maintain our landscaping. What will stop Global from constantly sticking another increase on the residents of Maricopa?

I vote that Global sell to the City of Maricopa and they can take control of our water. I've never lived in a city where water is controlled by a private company.
