re: attached 5/23/2013 letter

Meter was installed July 7, 2011 and there's been no health issues with resident since.

The only issues was the meter. Had to be replaced this past April. APS saying it was unreadable.

Only other item is that where the meter is mounted to house it blocks radio reception inside the house on both AM & FM receivers close to where the meter is outside by 6 ft. to 12 ft.
