Nature of Complaint:

DOCKET NO. E-00000C-11-0328
IN FAVOR OF SMART METERS

I just read the decision by the Sedona City council to request your commission to deny the APS application to install smart electric meters in the Sedona area and surcharge those residents who choose to opt out of meter installation.

I am in support of smart meters because of their savings in man-power and fuel for meter readers (with their inherent enhancement to the air quality). I think the objections to the plan stated by the Sedona Council are based in conspiracy theorists (the meters will be used to spy on the home residents) and false information about the danger of electromagnetic radiation given off by meters.

Keep in mind this city is the one that had a 49% opt out rate for childhood vaccinations (highest in the state).
