Nature of Complaint:

Docket No. E-00000C-11-0328

I am a senior citizen and have serious health problems. I do not want to be an involuntary test subject in the Smart Meter matter. These devices have has insufficient independent testing via non-industry funded research studies. They still require extensive safety testing before installing them anywhere and, especially, in retirement communities such as Sedona.

I was diagnosed with severe autoimmune hepatitis by Mayo Clinic Phoenix in 2008. I spend four years under treatment there and was on horrible medications (Prednisone and Imuran). Although I am in remission now, my immune system over-reacts to environmental and other exposures. According to the American Academy of Environmental Medicine, smart meters can cause immune system disorders. Please, my autoimmune hepatitis is subject to flaring up. I don't even take vitamins, herbals, nor any over-the-counter stuff. I am also on nighttime oxygen.

I do now want future health problems due to pulsed microwave transmissions 24/7/365 at my home. Nor do I want my privacy violated. Thank you very much for considering my comments.
