Nature of Complaint:

Consumer received a news letter from the 60 Plus Association. They are informing readers that the customers that do not have Solar panels are paying more to subsidize for the energy that is being purchased from these consumers through net metering fees. Consumer is opposed and does not want to pay more because someone else has solar panels on their homes.

Nature of Complaint:

Consumer states that he recently leased some solar panels, now he finds out that APS wants to penalize consumers with solar panels by increasing the rates. He is against any increases being requested by APS for net metering.
