Nature of Complaint:

OPPOSED E-01345A-13-0248 ELECTRIC

I had a solar system installed over a year ago and it has been a great benefit to me. APS, even more, benefits from the electricity that I produce. It does not cost them anything for the equipment to produce the electricity, I even pay for any repairs that are needed. Why should I be penalized for having solar? This will only deter people from purchasing solar and eliminate jobs in the growing solar market in Arizona. We need to rely more on solar to prevent using up all our natural resources like gas and coal. Eventually we will run out of these resources, it only makes sense to support solar and these penalty APS is proposing do not help.
