ELECTRIC

7/22/13: Phone Call

Mr. Cochran feels that what APS is proposing, as far as net metering, is morally wrong. APS are the ones that originally put out the incentives for solar and now they want to take them away. Customer installed solar for the main reason to save money. APS rates continually are going up but customers income is not. The APS proposal will increase his bill by \$100.

A brochure was received from a Washington association by the name of 60 plus. Everything this company is saying are lies, just another way APS is trying to manipulate their customers. They made a profit even during the recession and now they are trying to make even more. It's a wrong tactic to making money. I am opposed to the APS proposal on net metering.
