Re: Docket No. E-01773A-12-0305

Dear Commission,

As a Sulphur Springs Valley Electric Cooperative member/owner, I would like to present this letter in support of Arizona Electric Power Cooperative (AEPSCO) request to lower their rates. I support this for the following reasons:

- Both the Co-ops are member owned and not-for-profit
- It supports the Cooperative Principle to provide power at the lowest possible cost
- Our economy in rural AZ is still trying to recover from the recession and every little bit helps. Lower energy costs even if for only a brief period will help support our economic recovery.
- The decision to ask for a reduction in rates was made by my elected Co-op director and Board.
- Out of State Consultants don't have my best interest at heart.
- AEPSCO/SSVEC current rates do not compare to other AZ electric co-op rates within our region (Tucson Electric Power).
- Without a decrease, agricultural electric users will be changing their power source to natural gas to compete on a level playing field with other regions that pay less for electricity.

Respectfully,

Brian Driscoll
