Subject: Comment to Docket E-00000C-11-0328

"Smart" meters are making people sick and the effects are way worse than tobacco. Instead of respiratory and lung cancer showing up years of smoking, symptoms of headaches, tinnitus, vertigo, hypertension, seizures, bleeding started to show up shortly after the meters are installed. With these "Smart" meters, ratepayers are forced upon or face the possibility of having to pay an extortion fee. Even if someone had opted out, they are still radiated by their neighbor's meters and gateway collector. Here's the link to a symposium proceedings document on the biological effects and health implication of microwave radiation- sponsored by MEDICAL COLLEGE OF VIRGINIA Virginia Commonwealth University with the support Bureau of Radiological Health, U.S. Depart. Of Health, Education and Welfare. Go to page 100-107.
http://www.magdahavas.com/wordpress/wp-content/uploads/2011/102/Biologicalai_Effects_and_Health_Implications_of_Microwave_Radiation.pdf. APS' proposal did not include commercial accounts. Under the ADA act, people with EHS should not be discriminated. Having a "Smart" meter installed in library, government building, campus, health clinics, grocery stores, etc. essentially creates a barrier preventing anyone with sensitivities to access to such places.

"Smart" meter deployment needs to be halted at once.
End of Complaint

ARIZONA CORPORATION COMMISSION
UTILITY COMPLAINT FORM

Dear Ms. Ramsell:

Your email regarding "Smart" meters will be placed on file with the Docket Control Center of the Arizona Corporation Commission ("Commission") to be made part of the record. The Commission will consider your comments before a decision is rendered in the "Smart" meter application.

The concerns raised in letters received from customers will assist the Commission in the investigation and review of the application.

Staff appreciates your comments and the interest taken on the "Smart" meter application.

Sincerely,

Docket E-00000C-11-0328

Contact Name: Unknown

Contact Phone: (000) 000-0000

Nature of Complaint:

I am EXTREMELY sensitive to Electromagnetic Radiation and have been since I was young. First it was lights, then cell phones, now cell phone (H.A.A.R.P.) towers and "Smart" Meters. Recently, I moved to Sedona... just up the street from Airport Mesa and those wretched radiation towers. Only after a week, I started developing nervous system issues, headaches, and got VERY little sleep. Now that we moved out of this sublet and have been sleeping out in Nature... I feel %1000 better and sleep deep once more.

I've researched this technology... MICROWAVE technology that was utilized by the Nazis. The same technology that these cell towers and smart meters use... sending ELF (extreme low frequency) or EHF (extreme high frequency)... completely UNATURALLY microwaves our VERY DELICATE Energy Bodies! Not only us but ALL other Animals and PlantLife, as well! Notice how HOT it is here?? How HOT it is the closer you get to those towers?? Sedona sometimes FEELS like hell on earth BECAUSE of Microwave Radiation... I've honestly never lived anywhere hotter and I've lived in a lot of places.

"Smart" Meters are just as bad! They are basically PERSONAL CELL PHONE TOWERS!!! This should be considered ATROCITY and a CRIME to Mankind and Nature.

You want to help yourself, your family, and your city?? Take down the Towers. DO NOT allow Smart Meters AT ALL.

Otherwise you MICROWAVE your own People. LITERALLY. Please, stop killing us.

Complaint By: First: Pete Last: Renzen

Account Name: Pete Renzen

Home:

Street: n/a

Work: (000) 000-0000

City: Tucson

CBR:

State: AZ Zip: 00000

is:

Utility Company: Arizona Public Service Company

Division: Electric

Contact Name: For assignment

Contact Phone:

Nature of Complaint:

Mr. Renzen had questions regarding the smart meter. He will try to make it to the Phoenix Office when the Commissioners are ready to hear this case. He has a video with evidence that his shows his meter still getting a signal even after turning off or switching off all of his breakers. He would like to show it to everyone that day. There is an article in the Popular Science <http://www.popsci.com/technology/article/2012-07/seeing-through-walls-wireless-router>, he also wanted to share.
