Customer sent the following -

Please do not allow APS to change the net-metering now in place. I have had solar on my residential home for 2 months now. Even though I would be "grandfathered" in their proposed changes, I would still be in a negative situation if I decide to sell my house because the solar lease would be part of the sale and the new owner would not receive the same price (net-metering) I receive for the electricity I send to APS. This would harm my chances of receiving a fair price for my house. If I had known this months ago, I would not have installed solar on my roof.

If APS gets it's way, the solar industry in Arizona will be dead and its not fair to the people like myself who want to conserve fossil fuels.

Thank you and have a great day.
