Subject: Emergency Rate Increase Docket No. W-01815A-13-02-10

As a resident and property owner of Golden Shores for several years, I do not believe this is the time to start raising rates, especially with the economy in the state that it is in and the financial burden it would place on a lot of the families in Topock and Golden Shores, most of the people are on aid and fixed incomes all ready. With the high cost of food, fuel, clothing and so on, I think it's about time to start looking elsewhere for solutions other than the poor folks pockets.

I'm sure if our water company looked real close it could find ways to cut back on operating cost. We are not looking at a small increase here, but a substantial one. This would not only burden residents but businesses in the area also. Which would intern pass there increase on to the costumer. So I respectfully request that you deny the Golden Shore Water Company Inc. there request for an Emerging rate increase at this time.

Respectfully Yours, Gerald Viano

Docket # W-01815A-13-0210

Golden Shores, also known as Topock 86436 is a small older community. In the early 2000, Big developers came into our community raped our neighboring land , caused property values and taxes to rise. Golden Shores Water Co. installed new water lines to accommodate the development then the developers disappeared and left.

We understand the water co have old water lines to replace now and then and without the new development they need a helping hand.

But come on 94% increase

Winter visitors will turn off their meters when they leave. We'll have to give up our trees & shrubs, not good for our environment nor the community.

Sincerely
Mr & Mrs GA Briggs

P.S. Why isn't the hearing in our community?
