Re: Docket No. E-01345A-13-0248

Dear Parties to the Docket:

In recent weeks, many Arizona ratepayers have contacted the Arizona Corporation Commission with the mistaken impression that the Commission has changed existing net metering policies. The Commission is indeed reviewing a number of proposals that have been suggested by several parties that relate to existing net metering rules. Those proposals and related comments can be found in our docket at E-01345A-13-0248.

It is important to note that no changes have been made to net metering policies at this time. Although numerous proposals have been described in the media and in political mailings, no deadlines have been set for ANY changes and no proposals have been adopted.

Ratepayers who have an interest in this issue are encouraged to follow the filings in the docket on this issue and to continue to communicate to the members of the Commission their thoughts on the ideas discussed in those filings. In addition, those ratepayers that are APS customers should take a look at information specific to APS located on their web site at <http://azenergyfuture.com/>.
