ARIZONA COMMISSION
DOCKET CONTROL

Dear Mr. and Mrs. Bump:

Thank you for your email regarding Net metering. It is important to note that no changes have been made to the Net metering rules at this time. APS has filed its proposed changes to the rules and I anticipate the Commission will consider APS's proposals this fall. You can find information about APS's proposals and track the case's activity by visiting the Commission's eDocket website at: <http://edocket.azcc.gov/edocket/> (enter docket no. E-01345A-13-0248).

Again, at this time, no changes have been made to the Net metering rules. Please note, however, that I appreciate your comments. Your letter will be docketed and made part of the public record.

Sincerely,

Robert L. Burns

Subject: Solar Agreement

Dear Mr. Burns,

Is there a reason that you are changing the net metering and grandfather clause that we agree to when we purchased the solar system for our home. We bought into the solar idea to save the environment, to reduce our Bills for electric and to increase the value of our home for the future owner. Please respond with your reasoning for changing the agreement mid-stream?

Sincerely,

Ernest and Eileen Bump
