Re: APS Application for Approval of Net Metering Cost Shift Solution
Docket No. E-01345A-13-0248

To: All Parties to the Docket:

I have read with great interest the materials which have been filed in this docket. Staff of the Commission is also conducting an in-depth investigation of the issues in this matter. Commissioner Pierce requested Staff's assistance in analyzing technical studies and identified certain issues for examination by staff in his letter of July 15, 2013, posted at <http://images.edocket.azcc.gov/docketpdf/0000146930.pdf>. As part of its analysis, Staff has made data requests of the parties, and the parties have made data requests of other parties. Neither data requests nor responses are typically filed in the docket¹.

In this case, because of the detailed technical issues which have been raised by stakeholders, it will assist me in my review and consideration of the issues for such data requests to be filed in the docket. Accordingly, I request that the parties file all data requests and responses (including those submitted prior to the date of this letter) in this docket.

Sincerely,

A handwritten signature in black ink, appearing to read "Susan Bitter Smith".

¹ The fact that data requests and responses are not filed in the docket is not unusual, and is in conformity with practices of other adjudicatory bodies. "Data requests" in Commission practice are similar to Interrogatories in a judicial action. As a general rule, Interrogatories and Responses to them are not filed with the courts, although they can be used during the judicial action.
