ARIZONA CORPORATION COMMISSION
RECEIVED

2013 AUG 22 P 3:55

AZ CORP COMMISSION
DOCKET CONTROL

August 21, 2013

Eugene Passman
2949 W. Wescott Drive
Phoenix, AZ 85027

Dear Eugene,

I received the letter that you sent to me and would like to thank you for sharing your concerns about Net metering with me. The Commission has now received a proposal from APS regarding Net metering. Technical conferences have been held about this issue. The Commission will be holding public meetings on this proposal later this year. Scheduling of these meetings will be announced later this summer.

Your letter will be made a part of the public record. You can track the case's activity by visiting the Commission's eDocket website, <http://edocket.azcc.gov/edocket/>, and entering the docket number E-01345A-13-0248.

Please feel free to contact my office for more information at (602) 542-3625.

Sincerely,

Susan Bitter Smith
Commissioner

Arizona Corporation Commission
DOCKETED

AUG 22 2013

DOCKETED BY
nr

Aug 5, 2013

Commissioner Susan Bitter Smith
1200 W. Washington - 2nd Floor
Phoenix, AZ 85007

Dear Commissioner Bitter Smith,

I'm sending you this email to ask that you please not deregulate Arizona's electricity system.

Many older Arizonans are on fixed incomes. We already face ever-increasing costs of living.

With our state's hot summers, power for cooling is not optional. Keeping the cost of electricity affordable should not be put at risk with "deregulation".

Why risk the safety and pocketbooks of Arizona's families and retirees?

Please oppose this experiment of "electric deregulation". Thank you.

Sincerely,
Eugene Passman

Re: Don't Dim Arizona's Bright Future

Dear Commissioner Smith,

Please don't succumb to Arizona Public Service (APS) and their lobbyists. The APS solar proposal for increased fees is excessive and unjustified (e.g., APS reaps savings through lower maintenance costs, fewer new power plants). These savings need to be passed to the solar customers.

I have seen many elected officials who are confident they are doing the right thing and cause great damage to Arizona's future in the process. Now, the Arizona Corporation Commission (ACC) is at one of those decision points.

Arizona solar energy potential is vast, yet APS wants its future residential customers with solar units connected to its power grid to pay more. Ostensibly this would cover APS' costs for maintaining the grid. APS would remove incentives that promote cheaper energy.

If APS **decreases the benefit** of solar, consumers won't install units, **leading to higher unemployment** in Arizona. Don't **punish** those who try to do the right thing. APS claims solar bills are too low, but their administrative **fees** are paid on every bill.

If the consumer buys his own equipment, he/she shouldn't be **charged** to use it. If the consumer rents the equipment he/she is already paying enough.

APS is attempting to **destroy** the solar industry in AZ with their **clandestine marketing campaign**. Please don't let greed defeat the solar industry.

Sincerely,

Ronald L. Harvey, M.D., MBA

Alissa K. Harvey, M.T. (ASCP)
