Subject: Proposed rate decrease.

Board members,

As a Mohave Electric Co-op member and electricity user, as well as a member of a financially struggling community, I ask you to please approve the rate decrease to the power users in this area. During the worst economic downturn in my lifetime, we have seen all of our energy costs go up significantly. Our electricity rate has doubled, gasoline has more than tripled in the last ten years, food has almost doubled (blamed on increased energy costs) yet available income has either stagnated or shrunk dramatically. Even if the rates could go back up in the future, the reduced rate could help with our area's financial recovery.
