RECEIVED

**Utility Company:** Arizona Public Service Company

**Division:** Electric

**Contact Name:** For assignment

**Nature of Complaint:**

Docket No. E-01345A-13-0248

It is unbelievable that APS is trying to change the rules regarding net metering. Rooftop solar delivers significant public benefits. It creates jobs, energy savings, improved air quality, lower stress on the power grid and decreases the use of precious resources in our energy nations energy production. This valuable resource should be supported and encouraged in Arizona and the United States as a whole.

The production of "free" energy using the sun as a resource should be supported by all especially if individuals are willing to invest in solar energy production using their hard earned money and personal residences.

Please keep me posted as to any public hearings. Thank you.

Max Hendricks  
(APS customer and solar panel owner)
