(Docket No. E-01345A-13-0248)

To whom it may concern:

Dear Board of directors for the Arizona Corporation Commission,

There has been some press lately about a proposed change to the renewable energy source tariff, specifically for APS. I urge you to not accept the proposal at this time and table the matter for a minimum of one year to allow a full and complete discussion on the proposal.

Much of what is being said does not seem to make sense nor logically follow. Unless the primary goal is to have a bigger bonus for the top executives without regard to a stable power delivery system. If the intent is to provide clean steady power, the proposal by APS to change the net metering status quo is not moving in the right direction.

regards,
Chris Dimitruck
