AZ CORP COMMISSION  
DOCKET CONTROL  
The Honorable Bob Stump  
Arizona Corporation Commission  
1200 West Washington  
Phoenix, AZ 85007-2996

Dear Commissioner Stump:

I am astounded to learn that the Corporation Commission is once again considering the pie-in-the-sky idea of lower bills by deregulating electricity. The only people pushing this scheme is those who are interested in making money. I am sure that what most of your constituents want is reliable electric power at a reasonable price. That is the whole purpose of having a regulated monopoly and a Corporation Commission to regulate it.

The people of California got suckered into the idea of deregulation giving them cheaper electricity. What they got was electric bills that were double and triple of what they had been paying.

Please don't do that to us. And please don't waste any more of the Corporation Commission's time considering this scheme again and again.

Very truly yours,

John Hinz

Arizona Corporation Commission
