Commissioner Bob Stump

Phoenix, AZ 85007

Dear Commissioner Stump,

I'm sending you this email to ask that you please not deregulate Arizona's electricity system.

Many older Arizonans are on fixed incomes. We already face ever-increasing costs of living.

With our state's hot summers, power for cooling is not optional. Keeping the cost of electricity affordable should not be put at risk with "deregulation".

Why risk the safety and pocketbooks of Arizona's families and retirees?

Please oppose this experiment of "electric deregulation".  
Thank you.

Sincerely,

Mr. Michael Dayton

Our electricity is very high now, we do not need higher rates. The above is true, most of us are on fixed incomes.  
Thank you.

Dear Commissioner Stump,

I'm sending you this email to ask that you please not deregulate Arizona's electricity system.

I'm retired and on a fixed income. My home is one of the original Del Webb Sun City homes built in 1960 and is only 976sf. My electric bill for the hot month of July-August is \$397 (!!!) I'm forced to make cuts in other areas such as food and limit trips in the car. Any increase in rates will be very stressful and deregulation will most definitely increase rates - it always does.

PLEASE oppose this experiment of "electric deregulation".

Thank you.

Sincerely,

Dear Commissioner Stump,

I worked for Duquesne Light in Pittsburgh for 35 years and saw how deregulation caused deterioration in all aspects...Its a quick money maker for a few at the top...then that company sold the 100 year old utility to a Australian co. which further caused a loss of good positions....which they hired back as temp. workers. The company needed only to hire better Management....We found Loyalty is very important...When broken you produce a dangerous situation with little profit.

This will be a short term fix..DO NOT DEREGULATE!!!!

Many older Arizonans are on fixed incomes. We already face ever-increasing costs of living.

With our state's hot summers, power for cooling is not optional. Keeping the cost of electricity affordable should not be put at risk with "deregulation".

I am getting really tired of the Republican attitude that there should be no middle class, only rich controlling the very poor. Deregulation is just another step toward that goal. Are we really headed toward the society described by Charles Dickens over 100 years ago? Please think about average income workers and retirees for a change.
