RE: Docket No. E-00000W-13-0135

Dear Chairman Stump:

As an Arizona energy user, I urge you to support consumer choice by acting in favor of electric competition in Arizona.

With electric competition, families, businesses and government entities in our state will benefit from the right to shop for their electricity. Just as Arizonans can compare offers for other everyday goods and services based on price, product features and contract flexibility, they should be able to choose the best option for their electricity. In addition, Arizona's economy and environment will benefit from greater investment and innovation spurred by competition. Staples spends over 2 million in energy costs at 60 locations in this market.

As a Goldwater Institute report summarized: "Only by moving Arizona's electricity industry closer to the ideal of an open and competitive market can the ingenuity of entrepreneurs be engaged to meet the increasing demand for electricity—the lifeblood of Arizona's economy."

Electric competition is already delivering benefits to residents and businesses in many other states across the country. It's long overdue here. Please act to implement electric competition in Arizona.

Thank you for your consideration.

Sincerely,

Robert W. Valair  
Director Energy & Environment Management  
Staples, Inc.

RE: Docket No. E-00000W-13-0135

Dear Chairman Stump:

Please support my right to choose. Competition in energy provides me the freedom to decide which products and services best suit my needs. I do not have a choice today. I deserve to have electric choice just as I do other life decisions – a choice of neighborhoods, homes, cars, cell phones, cable TV, internet, clothing, and hundreds of others.

With electric competition, my family and business will benefit from the right to shop for electricity. I will know that I am receiving the best price for my needs, the most innovative product features, and contract flexibility that does not exist today. Arizona's economy and environment will benefit from greater investment and innovation, and that means a better quality of life for all of us.

Please do what is long overdue and right for Arizona, vote for us, choose choice.

Thank you for your consideration.

Sincerely,

Arthur Justice  
Cinemark UEA  
Director of Energy
