Nature of Complaint:

OPPOSED E-01345A-13-0248 ELECTRIC

I urge the commissioners in the strongest terms possible to oppose the APS net metering changes submitted for consideration by the ACC. The APS plan is a overt attempt to stifle the solar industry in Arizona. If implemented, the plan would result in immeasurable harm to both APS rate payers and the overall solar industry in Arizona.

APS solar customers entered into their solar purchases with a long term view given the 25 year warranty and life span of their solar equipment. It is unjust and downright negligent policy making to continually change the rules of the game for the solar industry and our customers at the whims of the utility companies and their well funded and very active political lobby. The Arizona Corporation Commission was duly elected by the citizens of Arizona, and each of the commissioners has a sworn duty to represent the best interests of the CITIZENS of Arizona, and not utility company executives, equity investors and bond investors in utility companies. Please uphold your duty as a representative of the good people of Arizona and oppose the moves of APS and other utilities in the state to kill the renewable energy industry so they can make higher profits at investor owned utilities.
