I, George M. Cooper, Membership #274342, due hereby object to the proposed rate increase. This most definitively applies to any "streamline" method that only makes rate increases easier to implement. Times are tough and I have wached money wasted by SulphurSprings Valley Electric Co-op as new power poles are installed on the new and improved south Highway 92 debacle of a road "improvement" thru Hereford. Do more with less and remember your origins with the R.E.A.
