Scottsdale, AZ 85258

September 25, 2013

Dear Bob Stump,

Please reform the solar net metering system now. As more people add solar panels to their homes and businesses, the rules created years ago to encourage the practice are no longer viable and must be updated so that everyone pays their fair share for use of the electric grid. With 300+ days of sunshine annually - AZ should be the Solar / Photovoltaic capital of the world. Thank you.

Sincerely,
Katherine Stevenson

September 25, 2013

Dear Bob Stump,

Please reform the solar net metering system now. As more people add solar panels to their homes and businesses, the rules created years ago to encourage the practice are no longer viable and must be updated so that everyone pays their fair share for use of the electric grid. I do not feel it is fair for non solar users to pay higher bills because the solar users continue to use the grid for free.

Sincerely,
Elaine Morris
