Received the following -

DOCKETED BY

Good Day

First off I don't understand Why APS is screwing with Solar this makes no sense in today's world of government saying save save save so we do and then get the shaft ,

I just bought a home in Az and was planning on retirement In AZ due to how much it cared for its people well I have to tell you now I am rethinking after APS power grab and screwing the people in the processcome on leave the retirement people alone let them live on the fixed income that they have and not suffer with higher power bills So far I have spent approx. 150k in az on home and solar and I know many others are coming to spend \$\$ in AZ to retire ...but tax them out and you will lose in the end... its ok to let APS know to keep solar and lay off people they don't have to hire so many and keep raising rates tell them to put them welfare people on day jobs to help them get back into a work habit to get a job.

Please stop APS and let me move and live and spend & and die in Aztell APS to back off. LOOK at the long term not the short term

Gary Davis
Az Home owner and future retire in AZ (real soon)
