DOCKETED BY

Dear AZ Corporation Commission,

Thank you for the opportunity to express my support for updating our state's net metering policies.

As a solar panel owner since last December we have not seen a decrease in our energy bill. We have seen a jump of at least double in our bill. On top of paying for the lease. Recently we received a new meter which is suppose to correctly monitor energy being fed back to the grid. We hope we will see better results in our next bill. So as a solar customer I don't understand what the Net Metering rules really are or do? But I hope that the new metering policies will help. I cant see how I as a solar customer are pushing the costs onto non solar customers. I believe the solar customer is the one being taken advantage of here.

Thank you,
Mr. Walter Battelli
