Re: **Docket No:** W-02034A-11-0194 & W-02034A-11-0195
Decision No: 73574

Compliance item: File with Docket Control, as a compliance item in this docket by June 30, 2013 a copy of the ADEQ Approval of Installation of the POU treatment devices. If CWC is unable to comply with this deadline, it shall file an EXPLANATION of why not and any request for an extension of time prior to June 30, 2013.

Extension: Cienega Water Co. would like to ask for a six month extension on this Compliance Order to investigate the option of an RO unit for the subdivision with the reject water going into the palm grove or other landscaping. This was proposed to us by our engineer Jeff Bower, H2O Concepts and the chemist at Filtronics. If this is indeed the case it would be a solution for CWC. We are ready to proceed with a resolution as soon as possible.

With all due respect I ask for an Extension in time until April 10, 2014 to allow us to do what the Commission has ordered.

Sincerely,

Debra Kilgore
