Re: **Docket No:** W-02034A-11-0194 & W-02034A-11-0195
Decision No: 73574

Compliance item: File with Docket Control, as a compliance item in this docket by June 30, 2013 a copy of the ADEQ Approval of Installation of the POU treatment devices. If CWC is unable to comply with this deadline, it shall file an EXPLANATION of why not and any request for an extension of time prior to June 30, 2013.

EXPLANATION: The compliance item was not completed as Cienega Water was unable to receive the 100% cooperation from their customers as ADEQ required.

We went door to door throughout the subdivision. In anticipation on receiving permission to have a licensed plumber come into the customers' homes at a time that would be convenient for them to install a POU at their kitchen sink. The majority of owners were unwilling to participate. As it posed an inconvenience to them for something they would not use.

We have since gone to H2O concepts and Filtronics for bids to build an RO system. Which we recently discovered that CWC could install for less than earlier predicted and the reject water could be used for landscape, eliminating the use of sediment ponds.

Sincerely,

Debra Kilgore
