Re: Docket W-02105A-09-0522 Decision 72001

DOCKETED BY 

Here is our quarterly water report for the third quarter of 2013. Old meters are being replaced on an ongoing basis to improve water loss.

We have recently started offering a reward for any information that leads to the conviction of a person stealing water from us. No information has been received as of yet, but it is interesting to note that the water loss was lower in September.

We believe that much of the water loss must be the result of a person or persons actively doing something to cause it. The question that we are unsure of the answer to is how we can catch them.

We are continuing to explore any option we can think of in order to explain and put an end to this excessive water loss.

Please let me know if you have any questions.

Respectfully,

Michelle Monzillo
Business Administrator
Mt. Tipton Water Co.
