Re: Docket E-00000C-11-0328

Commissioners: The Big Park Regional Coordinating Council passed the following resolution at their regular public meeting on October 10, 2013.

RESOLVED, that the Big Park Regional Coordinating Council, on behalf of its 28 residential, business and educational organizations (representing 6,000 residents) in the unincorporated part of Yavapai County, Arizona, known as the Big Park Planning Area ("Area"), hereby requests the Arizona Corporation Commission require APS to allow its customers in this 52 square mile Area, without additional fees or penalties, to refuse the installation of "smart" meters and retain their analog meters, until such time that truly independent testing and auditing has proven that "smart" meters are as safe as the current analog meters and fiscally prudent for our local customers.
