RE: Smart Meter Docket #E-00000C-11-0328

Dear Ms. Litrell and Mr. McIlroy:

Thank you for sending me the "Take Back Your Power" DVD. As commissioners, we want to make sure we have received all pertinent studies, reviews, and findings by government and educational/research institutions in order to make the best decision. We have received a plethora of information on this topic and recently asked the Arizona Department of Health to analyze the issue.

I appreciate your input and will take your concerns into full consideration when I make my decision.

Sincerely,

Robert L. Burns

Re: Docket # E-00000C-11-0328

Mr. Bob Burns, Commissioner  
Arizona Corporation Commission  
1200 West Washington Street  
Phoenix, Arizona 85007

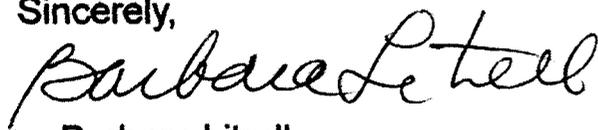

Dear Mr. Burns,

We are the two members of the Sedona City Council who were instrumental in placing the "smart" meter issue on the City's meeting agenda. As you know, this resulted in a Council meeting devoted to the issue in which both APS and Sedona Smart Meter Awareness gave presentations.

Based on the information presented at the meeting, both in the presentations and in the Q & A that followed, Council voted to send ACC a letter requesting that Sedona be allowed to opt out without penalties as a community. That letter is now posted in your "smart" meter docket.

The two of us are still very concerned about "smart" meters and wanted to *share with you a recently released documentary that covers every aspect of this important issue. Please accept and watch the enclosed DVD of **Take Back Your Power**, and include its information in your thoughtful deliberations.*

Sincerely,

  
Barbara Litrell

  
Dan McIlroy

Note: We are sending this to you as residents of Sedona, not in our capacity as City Councilors. The opinions expressed above are our own and are not meant to speak for City Council or staff.
