Dear AZ Corporation Commission,

Thank you for the opportunity to express my support for updating our state's net metering policies.

I am concerned that the current net metering system gives an unfair financial advantage to those who have rooftop solar panels and use the grid to sell any excess power that they generate back to the utility. This leaves customers like me with increased costs to maintain the grid.

You should use your authority to correct this policy so that anyone who uses the electric grid helps pay to maintain and keep it operating reliably at all times. Just because someone chooses to use solar doesn't mean I should have to pay them for it.

Please take action on this important matter as soon as possible. Any delay will just extend these unfair policies.

Thank you,

Laura Stacey
