ELECTRIC

Dear Arizona Corporation Commissioners:

Thank you for considering changes to Arizona's current solar net metering structure. This is an important decision because the current structure is unfair. Under the current rules, rooftop solar customers rely on the electric grid, but pay little-to-nothing to use it. The costs to maintain the grid are then spread among non-solar customers. Solar energy makes sense for Arizona's future. Let's fix the system now so it is sustainable for years to come. *End of Complaint*
