Hello Commissioners,

Thank you for your service to the citizens of Arizona.

I have been hearing a LOT of radio and television advertisements saying Net Metering is bad. Based on my research, I think this is the most ludicrous thing I have ever heard.

I am an Arizona homeowner but do not NOT have solar panels on my properties.

I think the advertisement campaign by APS and SPR are based on the reduced sales of electricity to homeowners and businesses and has nothing to do with trying to protect the public interest.

Please continue to support Net Metering. It is good for the environment and for the citizens of Arizona.

Again, Thank you for your service to the citizens of our state and GOD bless you!
