Nature of Complaint:

Customer sent the following -

I am disturbed to learn that APS is seeking to artificially raise my home electric bill. I spent about \$125K to install solar panels. And have at least \$80K invested after tax credits and APS rebates. APS says that I am not contributing to the maintenance of the "Grid", but APS has not had to add generation/transmission/distribution capacity for me. I have freed up generation/transmission/distribution capacity for APS. They have been able to add new customers with no additional expense. How do I protest this possible change?
