DOCKETED BY 

Re: Commissioner Bob Burns' Letter to Docket Regarding Net Metering Dated October 30, 2013 Filed in Docket No. E-01345A-13-0248

Commissioner Burns:

In your letter to this docket dated October 30, 2013, you asked for responses to three questions. In response to your first question, Sulphur Springs Valley Electric Cooperative (SSVEC) has not spent any money on net metering including supporting lobbying efforts or contributions to organizations that lobby or retain lobbyists to promote supporting views.

In response to your second question, SSVEC salaried employees have not spent any hours on the public relations campaign to support SSVEC's positions on net metering since we have not developed one yet.

In response to your third question, SSVEC will not be seeking to recover in a future rate case funds expended to promote SSVEC's views on net metering since not only have we not developed a net metering program for the future and hence have not spent any monies.

Finally, SSVEC requests that the Commission not attempt to use a one-size fits all policy on net metering because the Staff and APS net metering proposals and what will be adopted by the Commission for APS will most likely not be appropriate or applicable for electric cooperatives.

Sincerely,

Jack Blair  
Chief Member Services Officer
